MYCOTAXON

THE INTERNATIONAL JOURNAL OF FUNGAL TAXONOMY & NOMENCLATURE

MYCOTAXON is a quarterly, peer-reviewed journal devoted to mycological taxonomy and nomenclature. All articles are reviewed by specialists prior to submission. Publication is open to everyone. Papers are in English, with summaries in any additional languages desired by the authors given for longer articles. Authors prepare their own files after having received critical comments from pre-submission reviewers and nomenclatural review by the Nomenclature Editor. *Instructions to Authors* and *Guidelines for Reviewers* are updated and can be downloaded from our website at <WWW.MYCOTAXON.COM/AUTHORS/DOWNLOADS.HTML>. Submission procedures are presented in the last pages of each volume.

ALERT — ATTENTION ALL SUBSCRIBERS: IMPORTANT NEWS!

MYCOTAXON is evolving!

In January 2011, we will convert to an online format and will no longer offer a printed version of the journal, except to selected libraries for nomenclatural purposes. MYCOTAXON has, from its inception, worked at being a fast and affordable means of sharing taxonomic and nomenclatural discoveries. Rising postage costs and our efforts to "go green" convinced us that moving to an online format offers subscribers and authors numerous advantages. Keep up to date on this changeover at:

www.mycotaxon.com/gogreen.html

ALERT — ATTENTION AUTHORS: ADDITIONAL NEWS!

Among the many advantages an online MYCOTAXON offers authors is the opportunity to publish an unlimited number of pages and color illustrations, both at NO COST! All articles submitted to MYCOTAXON now require authors to provide Digital Object Identifiers (DOIs) in their cited references. More information on this new process is available at:

www.mycotaxon.com/authors/doi.html
